MADE FROM NATIVE ROOTS. SAFE AND RELIABLE.

SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the curs of human maladies is well proven. Even the untutored Indian had learned the curstive value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his equaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "paposes root" for her, for that was their great remedy for formale weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription." skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women. Many afflicted women have been saved from the operating table and the surgion's knifts by the timely use of Doctor Pierce's Favorite Prescription. Tender-ness over the lower points region, with backache, spells of dizines, talatness, bearing down pains or distress should not go enheaded. A coarse of "Favorite Prescription will work marvalous beneat in all such cases, and generally effect a permanent cure if genested in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicinal roots, without a drop of alcohol in its make up, whereas all other medicinal roots, without a drop of alcohol in the medicinal process.

The presumption is that they mean to conteat the verdict before the legislature, out this could hardly count for anything as the election was only intended to get an expression of the votes as a means of governing the representatives in the legislature with reference to enacting the necessary legislation to abelish the present city charter, under which saloons exist.
